ADA, OKLAHOMA, FRIDAY, APRIL 15, 1921

FIVE CENTS THE COPY

COALGATE WOMAN ON TRIAL TODAY

Companion of Ben Marshall
Defendant in Liquor
Case.

An echo of the recent tragedy in Ada when Gus Nebhut was killed by Ben Marshall was heard in county court this morning when Mollie Trammell went to trial on a charge of transporting liquor. Mrs. Trammell had been the traveling companion of Marshall for three days and was with him at the Byrd hotel when the killing occurred. She is jointly charged with Marshall with transporting the liquor that was in their car when it was seized by local officers.

Marshall himself was placed on the witness stand to testify in behalf of Mrs. Trammell. He stated positively that she knew nothing about the whiskey and did not know that he was transporting whiskey until they reached Ada. He stated that he had undertaken to convey Mrs. Trammell to Chickasha to visit her aunt, that they left the home of her father near Coalgate, visited Coalgate, Blaine, Pittsburg and McAlester, remaining at McAlester two nights. From McAlester they came to Ada.

Marshall was guarded in his answers to all questions and was very reticent in testifying to his past life. He admitted that he was born in White county, Arkansas, and that he is twenty-seven years of age. He stated that both his parents are dead but refused to give the name of his father. He also refused to answer whether or not he had ever served time in the penitentiary. He claims to be a cabinet maker by trade.

Mrs. Trammell testified in her own behalf. She says that she is twenty-two years old and has been married eight years. She separated from her husband some months ago, but he had been trying to cause trouble and she wanted to go to Chickasha to avoid him. She has known Marshall since February. She did not know that there was any whiskey in the car until near McAlester, the car turned over. She has a little girl six years old who was with them on the trip to Ada.

Local officers testified that they went to the Byrd hotel and found whiskey in the car belonging to Marshall. There were four half gallon fruit jars of whiskey in a suit case that also contained some clothing belonging to Mrs. Trammell and her child.

Testimony was closed just before the noon hour. The defendant is represented by George Trice of Coalgate, well known criminal lawyer of Southeastern Oklahoma.

GIRL WITH HER THROAT CUT MAY YET LIVE IT'S SAID

(By the Associated Press)
BARTLESVILLE, April 15.—Ladina Cole, 16 year old daughter of O. B. Cole, whose throat was cut last night by an unidentified man who entered her home here while her parents were absent, was still alive early today and physicians say that she possibly will recover. No trace of her assailant has been found, although parties of men in automobiles scoured the surrounding country last night in an attempt to locate him.

CONFERENCE CALL WILL GO TO BRITISH MINERS

LONDON, April 15.—The calling of a conference of representatives of the miners from all the coal fields, at a date to be fixed tomorrow, was decided upon by the executive council of the miners' federation this evening. It took this action after hearing the decision of the railroad men and transport workers to cancel their sympathetic strike. Frank Hodges, the miners' secretary, when questioned regarding this decision, said it meant that the miners' strike would continue.

Storm Damages Carnegie.
Carnegie, Okla., April 15.—Houses and barns on fifteen farms near here were destroyed by a tornado which struck here last night. Damage is estimated at \$75,000.

OIL BLANKS AND LEGALS

The big oil strike in the Ada territory will demand numerous blank leases, assignments of leases, deeds, etc., etc. The Evening News anticipated the demand and has stocked it shelves with every kind of legal blanks known to the business world. You get blank leases, deeds, mortgages, and all other kinds of blanks and forms here at prices that are right. Remember, too, that when you get a blank from here that it is just right.

OIL WELL DRAWS LARGE CROWDS

Representatives of Large
Companies Attracted
To Ada Field.

Excitement created by the big oil strike on the Burk farm, 12 miles northwest of Ada continues to grow with the arrival of new oil men from various parts of the United States who have heard of the new producing sand reached by the Carter-Nance-Laselle syndicate early this week, in section 32, township 5, range 5.

More than 400 men visited the well yesterday, including representatives of the largest oil companies in the United States, and the greatest enthusiasm prevails, even among men whose business it is to keep in touch with the big producing fields of the state.

All agree that a tremendous pressure of oil and gas is imprisoned under the control head which caps the top of the casing. Oil continues to issue from the joints of the casing, forcing its way through and running away in a constant stream. One man who just arrived from the Old Mexico field, where some of the greatest producers on the North American continent have been brought in, said to a representative of the News today that Pontotoc county is on the verge of a discovery that will rival the greatest records of the state.

Interest is centered on the Transcontinental well, located five miles northwest of the Carter-Nance-Laselle well, where Sam Jordan is setting 12 1/2 inch casing at 1,035 feet. It is thought that this well will be approaching the level of the Carter-Nance-Laselle sand by the time the well on the Burk farm is ready to be drilled in.

If the Transcontinental connects with the same sand encountered by the Carter-Nance-Laselle syndicate it is said that the magnificent volume of the Ada field will be made secure.

Already two brokerage concerns have started up in Ada, and bank deposits have increased by leaps and bounds. Most of the available space at the hotels and rooming houses in the city has been taken and still the crowd increases.

The following are a few of the new arrivals who have been attracted to Ada by the news of the big strike:

Mr. and Mrs. "Doc" Fisher of Electra, Texas. Mr. Fisher is general superintendent for the Buffalo Texas Oil company, at Electra.

Jimmie Jennings of Electra, a private operator and speculator.

John "Tex" Angel of Electra, Texas, who is interested with the Carter-Nance-Laselle syndicate in the new well.

"Fat" Warner of Electra, Texas, a drilling contractor and speculator.

Harry Lane and J. L. Van Dusen of Wichita Falls, both private capitalists and speculators.

J. S. Hughes of Ardmore, a representative of the Texas company.

George A. Lowry of Okmulgee, Geologist.

Frank Hicks of Welling, W. Va., representative of the Pittsburg, Pa., Union Petroleum company.

W. B. Skirvin of Oklahoma City. H. A. Kroeger of Oklahoma City, part owner of the Gillette-Kingwood acreage.

Simon Westheimer of Ardmore, one of the largest private promoters in the state of Oklahoma.

C. R. Hargis of Ardmore, representative of the Roxana Petroleum corporation.

Jack Kilburn of Ardmore, representative of the Twin States company.

Robert Briggs of Ardmore, representative of the Kansas-Gulf Oil company.

Jewell Burney of Ardmore, representative of the Empire company.

Tom Steel of Tulsa, field man for the Producers and Refiners company, who is here to complete arrangements for the drilling of the deep test in 1-3-5, three miles southwest of Ada.

Charles T. Kirk, geologist for the Daokla company, who is looking over the holdings of his company near Steedman with the view of making a location.

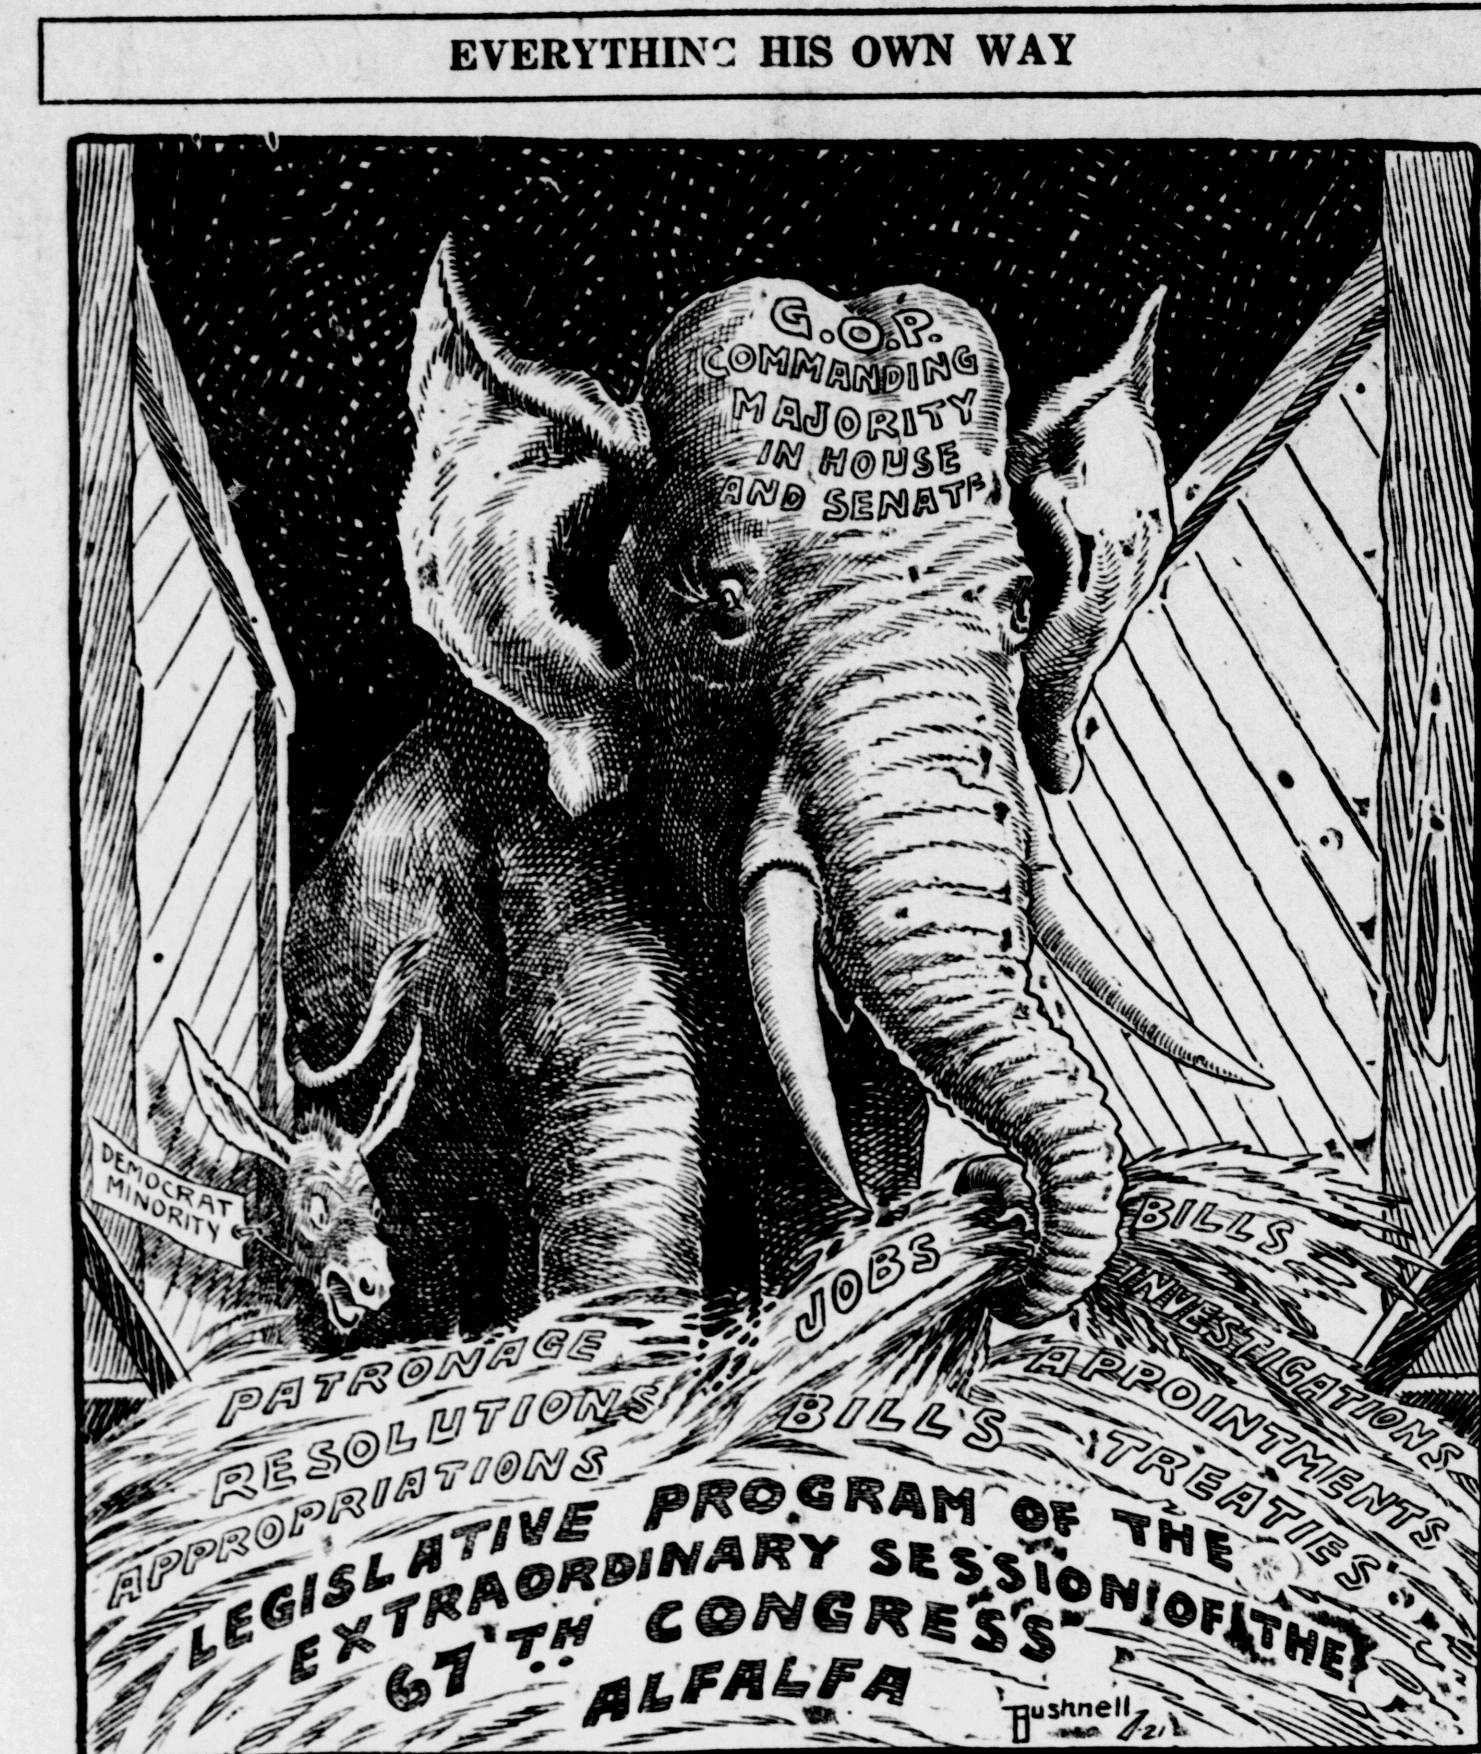

Z. T. Hoehns, scout and C. A. Warner, geologist for the Empire company.

K. C. Tucker of Ardmore, private promoter.

J. H. Snodgrass of Ardmore, banker and oil promoter.

A large delegation is expected to arrive from Tulsa, this afternoon, and O. E. Lancaster, who just arrived from Electra, Texas, reports that 15 carloads of oil men are now on their way to Ada from that place.

Word was received today from G. E. Nance, one of the owners of the Carter-Nance-Laselle well, saying that he would arrive tomorrow or the next day from Abilene, Texas, with a number of interested friends.

COUNTY MEET IS IN FULL SWAY

Preliminaries in Voice and
Reading and Piano Held
This Afternoon.

The Pontotoc county athletic and literary meet started this afternoon with the preliminaries in piano, declamation, reading and voice in both A and B classes with more than a dozen schools with entries and more coming in every hour. The first contest to be held began at 2 o'clock in the Normal auditorium.

The following is a list of schools that had completed their entries at noon today: Allen, Francis, Center, Stonewall, Lula, Ahlso, Hart, Oakman Ada ward schools, Pecan Grove and Fitzhugh. Other schools that were expected at any time were Latta, Roff and a few others.

The roads connecting Ada with the other towns of the county are in fair condition making it possible for large numbers of the students to come overland. The result is that all schools are well represented and much enthusiasm is being manifested in the meet.

The track and field meet will be held tomorrow and the finals in all preliminaries will be held tonight. Large crowds attend each session of the meet and those in charge are pleased with the interest and so far, success of the meet. If the plans are carried out that are now on foot, the meet will be the greatest in history, with the interest great in every school, the people showing so great an interest and the weather being favorable.

Baseball to Lead.
The baseball tournament will be the leading event of the entire meet as several teams have been entered in both A and B classes. The schools that have entered teams are as follows: Allen, both A and B; Center both A and B; Stonewall A; Lula A; Ada one A and three B teams; Fitzhugh one team.

The session tonight will be good as all finals, in music, voice, and declamation will be held. The showing made this afternoon promises a good program tonight.

HANGED TODAY FOR MURDER OF COMPANION

(By the Associated Press)
WAYNESBORO, Miss., April 15.—Lester Kanry, 24, convicted of having robbed and murdered his boyhood companion, Cleveland Row, was hanged shortly before noon today in the Wayne county jail here.

PORT GIBSON, Miss., April 15.—Jebbs Watt, murderer of Dr. D. S. Albertson, prominent Vicksburg physician, was hanged here in the county jail at noon today.

NEW PROBLEM FOR RAIL MEN

Employers and Employees
Must Join in Working
Out Details.

(By the Associated Press.)
CHICAGO, April 15.—Both railroad executives and labor leaders today declared the decision of the railroad labor board, abrogating the national agreements would materially advance the effort to arrive at an agreement satisfactory to all parties.

The board directed individual roads and their employees to confer and agree upon new working rules by July 1.

More than a half million men, including shop employees, clerks, maintenance of way laborers and all except those in train service are affected by the decision.

NEW WAY TO WEALTH ENDS DISASTROUSLY

(By the Associated Press)
WASHINGTON, April 15.—A unique counterfeiting scheme is alleged to have been brought to light today in the arrest here of six negroes, the oldest 21 and the other boys ranging from 17 to 14 years, who have been held by the grand jury after a preliminary examination. The six are charged with having used the corners of twenty and ten dollar notes turned into the treasury to be destroyed, to raise one dollar bills to the higher denomination. The process, it was charged consisted of a simple operation of sticking the corners on the smaller bills.

ROBBERS MAKE WATER HAUL ON I. C. TRAIN TODAY

(By the Associated Press)
CHICAGO, April 15.—Six armed bandits held up two bank messengers on an Illinois Central train early today and seized two satchels filled with worthless cancelled checks. The robbery was elaborately planned, two of the robbers following the messengers when they boarded the train at Van Buren, one half mile south. The robbery was staged when the train was running through 16th street and the men escaped with their hard won souvenir at 22nd street.

Sir Knights, Attention.
Regular convalesce of Ada Commandery No. 16, K. T., this evening at 7:30. All Sir Knights cordially invited to attend.—F. C. Sims, Recorder.

TRACK AND FIELD JUDGES CHOSEN

Normal School Announces
Officials for the Ninth
Annual Track Meet.

Interest in the East Central district Ninth annual athletic and literary meet has grown large and continues to grow as the date grows near, and the present outlook is very promising for the best meet in history. The Normal has charge of the meet each year and have just completed a list of the officers and judges for the meet this year.

The judges and officers are as follows:

E. C. Wilson, general manager of the meet.

M. W. Clary, assistant manager.

Ruth Carter, has charge of the information bureau and accommodations.

Y. W. C. A. girls will assist Mrs. Carter.

Hugh Norris, chairman of reception committee.

Misses McClure and Francisco will have charge of the free check room.

The Treble Clef club will be their assistants.

R. R. Robinson, E. A. McMillan, Edward Davis, B. A. Pratt and Hugh Norris will be the collectors.

Miss Emma Kellar will judge the music contest.

M. B. Molloy will have charge of the tennis.

R. S. Newcomb will have charge of the baseball tournament.

Misses Ina Mackin and Stella Watson and Mr. Davis, judges in high school reading preliminaries.

Misses Gertrude Montgomery and Ida Hoover and Mr. Nelson will judge the high school declamation preliminaries.

Revs. C. C. Morris, N. P. Patterson and R. C. Taylor will judge the finale in reading and declamation.

Track and Field Officers.
Walter Wray, starter and referee.

E. C. Wilson and M. W. Clary clerks of the course.

Hugh Norris, announcer.

Ed Granger, J. D. Lasater, J. C. Sparks and Dr. Cummings will be judges to the finish.

C. J. Warren, head time keeper.

R. S. Newcomb will have charge of the high school events.

Lester King will have charge of the grade school events.

W. K. Newcomb, Clifton Parker, Lester King and Dewey Hodges will be inspectors and property men.

Y. W. C. A. will have charge of the refreshment stand.

OKLAHOMA WEATHER.

Tonight and Saturday cloudy, rain, colder.

STORM DOES MUCH DAMAGE IN STATE

Six Counties Isolated in the
Eastern and Central
Parts of State.

(By the Associated Press)
OKLAHOMA CITY, April 15.—Efforts to communicate with the district in western Oklahoma, which was struck by a wind storm last night, was unsuccessful early today and it is impossible to learn the extent of the damage.

An area comprising at least parts of six counties and extending about 80 miles from west to east and about 30 miles from north to south is cut off from wire communication with the eastern and central parts of the state. Telephone service is interrupted between Oklahoma City and Clinton, Custer county, Elk City, Beckham county, Weatherford, Kingfisher county, Kingfisher and El Reno, Canadian county, according to the Southwestern Bell Telephone company.

Reports to the telephone company's office here are to the effect that no lives have been lost. These reports however are incomplete and not authentic. Interurban car service between here El Reno is suspended as a result of the damage to the system near Baner, Canadian county. A number of poles are said to have been blown down. Cars which were enroute to Oklahoma City last night were unable to complete their trip and are stalled today somewhere on the west part of the line.

OKLAHOMA CITY, April 15.—Telephone communication with cities in the west part of Oklahoma, re-established at noon today, revealed that early reports that a severe wind storm had swept across a large section of that part of the state were unfounded. A heavy rain and hail storm did, however, strike a strip of territory extending from Kiowa county through Caddo and Canadian counties and into Oklahoma county.

OKLAHOMA CITY, April 15.—A heavy hail storm last night, which did considerable damage to crops in the vicinity of Yukon, 10 miles west, was reported to the weather bureau here. Communication was established by telephone shortly after eleven with Cordell, Washita county, and Bridgeport, Caddo county. Reports from these two towns were that a heavy hail did much damage to crops, but that the wind, although severe, was not of cyclonic nature and did little damage.

HOBART.—A terrific hail storm swept over parts of Kiowa and Washita counties last night at Cordell where the heaviest hail was reported. Many plate glass fronts of business buildings were broken and every pane of glass on the west side of the Cordell high school was broken. No reports have been received from the rural districts as to crop loss. Some wind accompanied the storm. Many telephone poles were blown down.

Last Minute Telegraph

(By the Associated Press.)
To Prohibit Arms Shipment.
WASHINGTON, April 15.—Prohibition against the shipment of arms and munition to any country where they might be used for revolutionary purposes has been asked of congress by the state department.

Rumania Minister Appointed.
WASHINGTON, April 15.—Peter Augustus Jay, of Rhode Island, now minister of Salvador, was nominated today by President Harding to be minister to Rumania.

Sheet Iron Takes Drop.
NEW YORK, April 15.—Price reductions for sheet iron were announced today by the American Sheet and Tin Plate company, a subsidiary of the United States Steel corporation.

Denver in Storm's Grasp.
DENVER, Colo., April 15.—Denver and this section of the west today was in the grip of one of the worst blizzards of the winter. A gale of 42 miles an hour was raging here at 11 o'clock this morning and the outlook was for more snow and lower temperatures, according to the weather bureau.

Cashier Defeats Bandits.
CHICAGO, April 15.—S. B. Witowski, cashier of the State Bank of Cicero, a suburb, who was held up, defeated a gang of six automobile bandits today. He killed one member and wounded two, capturing two and only the driver of the car, who remained outside the bank, escaped.

BRITISH STRIKE MAY BE AVERTED

Rail Men and Transport
Workers Have Cancelled
Walk-Out Agreement.

(By the Associated Press)
LONDON, April 15.—An unexpected and sensational split in the ranks of the powerful "triple alliance" of labor this afternoon completely changed the complexion of the blackest industrial crisis Great Britain has ever faced and averted the projected strike of railroad men and transport workers in sympathy with the striking miners, set for 10 o'clock tonight.

Events developed with sudden and startling changes as to leave the public in amazement. Simultaneously with the announcement in the House of Commons by Premier Lloyd George that the miners had decided to accept his invitation to reopen negotiations with the mine owners, on the terms advanced last evening by Frank Hodges, the miners' secretary, gave the announcement that the railroad men and transport workers had "cancelled" the strike called for tonight.

LONDON, April 15.—Announcement that the railroad men's strike set for 10 o'clock tonight had been cancelled, was made shortly before 4 o'clock this afternoon by J. H. Thomas, general secretary of the railroad men's union.

No explanation was immediately available for the railroad men's strike, but it was thought in some quarters that it might indicate a split in the "triple alliance."

The transport workers strike also has been called off Mr. Thomas announced. As far as the railroad men and transport workers are concerned the strike is cancelled, he said.

"Bad Man" Shows "White Feather"

(By the Associated Press)
CHICAGO, April 15.—Sam Cardinella, master mind of a gang of thieves and murderers and Joseph Costanzo and Salvatore Ferrera, all convicted of murder were hanged here today. The triple hanging was a last minute arrangement decided upon when Cardinella broke down on learning that Antonio Lopez, who was to have been executed with him, had been reprieved last night by Governor Small. The drop fell for Cardinella at 10:26 a. m.

Hope of the sheriff and officials that the presence of the other two would serve to brace up Cardinella was vain. The self boasted "bad man" collapsed completely when he reached the gallows and it was necessary to carry him to the platform and strap him in a chair, so that the noose might be adjusted.

Cardinella's collapse again upset the sheriff's plans and the execution of the other two men was delayed twenty minutes.

CHICAGO, April 15.—Cardinella's band were sentenced to life imprisonment. Cardinella himself was convicted for directing the murder of Andrew Bowman, a saloon keeper although he was not present when Bowman was slain.

From his pool hall Cardinella is said to have directed crimes which included twenty murders and scores of robberies and shootings. One of the band, Santo Orlando, was found two years ago in the drainage canal, his body riddled with bullets. His place was said to have been taken by Nick Viana, a choir boy, who was hanged on his 19th birthday, recently.

Costanzo and Ferrera were convicted with Lopez of the murder of Antonio Varchetta, in an attempt to rob his grocery store. Lopez won a 30-day reprieve. Ferrera sketched pictures and wrote poetry during his last hours in the death cell, while Costanzo turned sullen and gloomy when he heard of Lopez' reprieve.

Women Voters, in Convention, Seek Stricter Marriage Laws

Representative leaders at the convention are, left to right, above: Mrs. Julian B. Salley, third regional director; Mrs. Maud Wood Park, chairman of the national league; Mrs. Carrie Chapman Catt, honorary chairman. Below: Mrs. Solon Jacobs, secretary, and Mrs. Richard Edwards, treasurer.

By EDITH E. MORIARTY.

CLEVELAND, O., April 15.—(Special)—Revision of the laws of marriage and divorce, unification of civil service laws, property rights and other fundamental problems concerning women may be worked out satisfactorily as a result of the national convention of the National League of Women Voters. The league which came into being a year ago in Chicago as an outgrowth of the National Woman's Suffrage association, whose duties ceased when suffrage was won, has a membership extending into 2,000,000. Republican and Democratic women, 2,000,000 of them, their partisanship forgotten, are banded together to win, not the vote, but by the vote those rights which they believe the women of America must have if they are to fulfill their highest duties.

There were 2,000 women in attendance at most of the sessions, coming from practically every state in the union. Daily discussion of election laws, child welfare, American citizenship, women in industry, social hygiene, unification of laws and food supply and demand occurred during the sessions. Such leaders as Mrs. Carrie Chapman Catt, Mrs. Maud Wood Park, Mrs. Solon Jacobs, Mrs. Richard Edwards and Mrs. Julian B. Salley and other women of note were in charge of these sessions. This is the first time in thirty years that Mrs. Catt has been a plain delegate. No hats were permitted in the convention hall while the meetings were in progress, but smart gowns and beautiful coiffures proved that the cartoonists' ideas of a woman voter are all wrong.

The platform planks submitted for adoption commit the league to its most strenuous year's program. In the main recommendations were:

Indorsement of legislation for the acquisition of stockyards by the railroads.

Encouragement of legitimate co-operative associations by the state leagues.

Removal from women of all legal disabilities, of all common law disabilities of married women; equal property rights between wife and husband, and legislation to abolish common law marriages and require health certificates as requisites for a marriage license.

Rededication of the Sheppard-Towner maternity bill to raise the standard, physically and otherwise, of the American mother and baby by federal appropriation and federal-state application.

Federal control of food industry, urged as in the case of banking and other branches of business, proposed by committee. Co-operative between producer and consumer and between farm woman and city woman to work out solution of the problems of waste, profiteering and lack of distribution.

Continued support to federal trade commission and co-operation with all federal agencies to obtain proper production, distribution and use of food.

Support of right of women to organize. The fight for the open shop is called a step backward.

A real merit system to prevail in federal service. Women should not be discriminated against.

School physical examinations.

Friday, the closing day of the official program, was dedicated to Anna Howard Shaw. Reports from the Anna Howard Shaw memorial committee were given a hearing.

Hotel Man Can Tell Whether Man Or Woman's Order By Reading Menu

Hotels serve women's food to women and men's food to men. F. J. McFarland, manager of the Harris hotel, shuffled several order cards in his fingers, sorting out those sent in by men from the women's orders.

"I can tell a man's order from a woman's every time," he laughed. "Celery soup, jelly omelet, pineapple sherbert—that's a woman's."

Here's a man's: Roast beef, navy beans, apple pie."

"We give the women something dainty to eat," he commented. "The women like chicken à la king, or a lamb chop, or roast turkey. We give them a pretty, fancy salad and they like ice cream and jellies for dessert. On a lady's plate we use smaller portions and make it look pretty. Vegetables in paper ramkins and spoonful of bright colored jelly add to its attractiveness. Women like novelties more than men do. Parsley garnishing and mashed potatoes in curls help. Light, attractive food suits their taste."

"Men are entirely different. They want huge steaks that roll off the

edge of their dinner plates, and plain wholesome vegetables. Then we give them a salad and for dessert pie or pudding. Apple pie is standard, a great favorite with everyone."

"Men want lots of what they get. They do not care a great deal for the pretty gelatin dishes that please women. Coffee and plain food suits them."

While women's appetites might be overwhelmed by the appearance of a masculine type luncheon, even if he did not veto it, as he did not favor it. The bill was introduced by Representative Drake, republican of Wagoner county.

It was learned that the governor has planned to let the measure die, even if he did not veto it, as he did not favor it. The bill was introduced by Representative Drake, republican of Wagoner county.

RAILWAY CO. ADOPTS NEW PLAN FOR COLLECTING FARES

(By the Associated Press.)

ST. PETERSBURG, Fla., April 11.—The Municipal Railways here began operating several suburban trolley lines April 1 on the "pay as you leave" plan in an effort to ascertain if a saving in time would not be effected at stops within the city when the cars were outboard. Passengers on all lines heretofore have paid fare as they boarded the cars and congestion at points of departure because of fare collection has resulted in serious delays. It is the theory of officials that only a few passengers will leave the cars at each suburban station and that collection of fare as they alight will result in the runs being made on schedule. Incoming passengers continue to pay fare as they board the cars.

HISTORIC STATE HOUSE WAS DAMAGED BY FIRE

(By the Associated Press.)

BOSTON, April 14.—The historic state house, built in 1748 and housing army revolutionary war relics, was damaged by fire today. It is feared many of the exhibits were damaged by water.

You will save money by reading the ads.

BURGLARS AND CONFIDENCE MAN SOUGHT BY POLICE

(By the Associated Press.)

OKLAHOMA CITY, April 14.—Police here today were looking for burglars who last night looted a home in a fashionable residence district, of clothing, cash and jewelry valued at \$1,500, and also for a "confidence man," who disappeared with a \$1,000 diamond ring, given him to inspect by a woman at a leading hotel. No arrests have been made.

New Beauty Parlor Open.

Mrs. J. H. Buckley, formerly of Oklahoma City, has just opened a Parisian Beauty Parlor in room 20, the new Shaw building. Mrs. Buckley is an experienced lady and will have one of the best appointed beauty parlors in this part of the country. Her advertisement appears in this issue of the News.

Mr. Hess of Stratford was in the city yesterday visiting friends and looking after oil business.

Miss Mary Johnson of Sasakwa was shopping here yesterday.

The Pierce Oil Co. has added a new White truck to their equipment here.

GO TO THEATRE

At the McSwain.
Bryant Washburn has in "A Full House," a new Paramount comedy drama, another one of those delightfully conceived comedy roles which have brought him such a high measure of success. "A Full House" was scenarized by Alice Eytan from the famous Fred Jackson stage farce. It will be presented at the McSwain theatre for today.

In the production Mr. Washburn appears as George Howell, a young attorney who gets into most amazing difficulties when he leaves his bride for a few hours to go on a business trip. This journey has a most amusing maze of complications involving another man's love letters, stolen jewelry, policemen and thieves. Mr. Washburn's impersonation is a finely drawn characterization that brings a continual stream of laughs.

At the American.
One of the most vital parts of "The Bottom of the World," the Sir Ernest Shackleton Antarctic Expedition picture, which has been released by Robertson-Cole, and seen at the American theatre opening today, is that which shows the thrilling experiences of the great British explorer and his men during the time they were battling to win their way back to civilization.

Going into the great South Sea from South Georgia, the southernmost frontier of inhabited land, Shackleton and his men pushed toward the pole which not long before had been discovered by Amundsen, until they were three degrees away from it where their ship, the Endurance, was caught in the ice and finally crushed. From there they started back over the ice, drawn by dogs among hazardous mountains of white glistening ice.

On Great Ice Cake.

At last they camped, and the ice upon which they had stopped broke off from the main field, and drifted. For ten months they were unable to get off this great cake of ice, drifting in the cold seas of the unknown South. Then they came to such a place that they could make the dash Shackleton took to the sea in the "James Caird," a life boat and went 800 miles to South Georgia, where he arrived almost exhausted but thankful for his escape.

"The Bottom of the World" shows the greatest wealth of polar scenes ever put on the screen. The pictures were taken by a camera man who accompanied Shackleton, and who managed to save his films throughout the dangerous return, and many other vicissitudes which beset the expedition.

The world has become very much interested in the Shackleton expedition through the newspaper reports of it, and through Shackleton's famous account of the voyage, called "South" which has just appeared. In this large illustrated work the famous British explorer tells his own fascinating story of the expedition.

The Shackleton expedition left Buenos Ayres and did not return until two years later, when it reached Valparaiso, Chile. Every important detail of the trip was put into the five reels of pictures which compose "The Bottom of the World" the official screen record of the trip.

ARDMORE—April 22 and 23 have been set aside here as the days upon which membership drives will be held to increase the roll in Ardmore's Civic League.

NORMAL NOTES

R. S. Newcomb left last night for Durant where he will attend a meeting of the Methodist church members of this district.

Pres. Linscheid left yesterday for Tulsa where he will judge a debate Friday evening.

The work on the walk which is being built from the administration building to the gym is progressing rapidly. The walk will be made of gravel and will be of great assistance in bad weather.

A chapel was held Tuesday at which time W. O. Pratt, representative for Pontotoc county and Rev. N. P. Patterson were the principal speakers.

Plans and preparations are being made by the class of last year to entertain the alumni of the Normal during the district track and field meet. Invitations will be sent out soon to those who are former graduates of the Normal.

The Boys' Glee Club, the Girls' Glee Club and the Treble Clef Club of the Normal will appear in a musical program on the evening of April 27. Much preparation has been made for this event and it is expected that the affair will be great.

The 7th and 8th grades of the training school girls who are taking home economics work this term plan to serve a luncheon to the faculty of the training school Saturday. The girls have made good progress and this luncheon will be a part of the work for the term.

Ed Brents was out of school a few days this week on account of the death of an aunt.

Robert Moore was unable to attend school a few days this week on account of sickness in his family.

Arrangements are being made to give high school graduates in the normal their diplomas this year as there are 14 who have already completed enough credits this term to merit the diploma. This will be the first year in the history of the school that diplomas have been given at the finishing of the preparatory school.

Mr. and Mrs. B. A. Pratt announce the arrival of a 10 pound boy at their home last Wednesday. Mr. Pratt teaches agriculture at the Normal.

Mrs. Hugh Norris, wife of the manual training teacher, has returned from a visit with relatives at White Wright, Texas.

The following are a few statistics regarding the giving of diplomas and certificates at the close of the spring semester. There will be awarded 70 life certificates; 100 2-year state certificates; 50

1-year state certificates making a total of 226 life and state certificates to be given this year. This is a large number and stands up to the standard of the school.

Mrs. Ruth S. Carter has announced the official enrollment for the entire school year, counting no pupil twice. The enrollment for the past year has been 546, the last student enrolling only this week. This number of enrollments does not include the summer terms.

LEADING AUTHORITIES NOW SHOW JUST WHAT TANLAC REALLY IS

**Physiological Action of
Principal Ingredients of
Celebrated Medicine on
the Human System is Ex-
plained.**

**SUPREMACY CLAIMS
WELL SUPPORTED**

**Many of the Medicinal Ele-
ments Have Been Known
and Used Since Civiliza-
tion First Began.**

Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada, is composed of the most beneficial roots and herbs known to science. The formula is purely ethical and complies with all National and State Pure Food and Drug Laws. Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association, as in the Tanlac formula, humanity had not here before realized their full value and effect.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text book, states that "They impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in describing the physiological action of still another of the ingredients of Tanlac, which is of value in treating what is commonly

known as "a run-down condition," uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influence upon the appetite, digestion, assimilation and elimination improve the nutrition and vital activity of the tissues and more important organs of the body, and produce that state of general tonic which is called Health.

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required. Dyspepsia, atonic gout, hysteria and intermittent fever are among the many affections in which it has proven useful."

There are certain other ingredients described in the Dispensary and in other standard medical text books as having a beneficial action upon the organs of secretion, whose proper functioning results in the purification of the blood streams passing through them. In this manner objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about a thorough elimination of the waste products must, therefore have a far reaching and most beneficial effect upon the entire system.

Although Tanlac's claims for supremacy are abundantly supported by the world's leading authorities, it is the people themselves who have really made Tanlac what it is. Millions upon millions have used it with gratifying results, and have told other millions what it has done for them. That is why Tanlac has become the real sensation of the drug trade in this country and Canada, and that is also why it is having the largest sale of any medicine of its kind in the world today.

BUICK

WE want you to judge the new 1921 Buick on this basis—capacity to give definite returns on investment.

Let us demonstrate one of the new Buicks and test for yourself Buick's quality of dependability; inspect the accessibility of mechanism; enjoy its roomy comfort. The graceful new lines make doubly enjoyable the pleasure of possession.

Since January 1, regular equipment on all models includes Cord Tires

Gibbons Has Earned Chance at Dempsey and His Heavy Title

Tommy Gibbons in his workout togs and a closeup of him.

By Norman E. Brown

Tommy Gibbons has earned the right to meet Jack Dempsey in a decision match for the heavyweight championship which Dempsey now holds. Why?

Gibbons has hung up a knockout record against the field of heavyweights practically as brilliant as that on which Jack Dempsey based his claim to the right to meet Jess Willard. The records prove that. And as one reads down through said record, giving the detailed account of Gibbons' work, one runs into the fact that Gibbons knocked out Bill Brennan in six rounds. And you'll recall that Mr. Brennan stayed twelve rounds with Jack the Champ. That's considerable reason.

Look over the list of Gibbons' victims: Jim Flynn, Carl Morris, Arthur Pelkey, Billy Fiske, Gun-

boat Smith, Fred Fulton, Jack Moran and Battling Levinsky. It's the same list that Dempsey showed to the world in asking for a crack at the title he now holds. The only man who worried Gibbons, while knocking out this string, was Willie McMan. And Wee Willy is the boy who gave Dempsey trouble.

And the above named victims fell before Tommy while he was learning to handle the big men. It is only within the last season that he has developed into a finished ring man. He has taken on more weight since he decided to go after the heavy crown, and as a result can hit harder.

Aside from the records themselves, a careful study of Gibbons shows him to be the only man in the heavy division who has the assets which make Dempsey a great fighter. These are speed, a terrific

wallop, cleverness, and the fighting heart. Gibbons goes into the ring with but one thought—to drop his man. And how he does drop them. Knocking 'em out is a science, as far as Gibbons is concerned. He does not depend upon a chance haymaker. He spends a few minutes, if necessary, while doing this. Then he makes the opening he wants and steps in. The other night he faced Al Reich, one of the classiest of the run of heavies, and dropped the giant Adonis in the first round. Reich, twenty-three pounds heavier and fast on his feet, was easy picking for Tom.

Gibbons has his heart set on a fight with Dempsey. The fact that Tommy never has seen Dempsey in action isn't worrying him. "I think I can handle him. I've never seen his shifty style, but I have a shifty style of my own," says Tommy confidently.

"Church Night" is Observed at Church by the Methodists

The members of the Methodist church gathered at the church Wednesday evening for the purpose of holding a "church night." At this meeting the principal speakers were Prof. Fentem of the High school and Messrs Robinson and Nelson of the Normal who spoke on the work of the church and the schools and how they should be placed together.

Mr. Adair then spoke for a short time about the district conference which will be held May 3 to 5 at Stonewall. After he had finished delegates to this conference were elected and they are as follows: Miss Sallie Fulton and Mesdames P. S. Case, R. C. Jeter, W. B. Jones, J. C. Ray and Messrs W. A. Alexander, J. A. Smith, John McKinley, R. S. Newcomb, E. L. Spencer and J. L. Adair.

They were then summoned to the parlors of the church where refreshments were served. Music for this was furnished by Miss Violet Moore on the piano and Richard Taylor on the cornet. Following the serving of refreshments the Sunday school teachers held a teachers' meeting at which plans for the children's day to be held the first Sunday in May were made.

WHEAT MARKET LOWEST IN YEARS

(By the Associated Press)
KANSAS CITY, Mo., April 14.—Wheat for July delivery closed below a dollar a bushel today for the first time since 1916. Dropping two and a quarter cents, today's price was 98 cents. Wheat reached its highest price in 1917, when it sold for \$3.45 a bushel in April. Yesterday July deliveries touched 95 cents, but rallied before the close. Today's lowest point was 97 cents, with a rally of one point to 98 cents at the close.

NEW GRAIN ELEVATOR LAW SPONSORS ARE ENCOURAGED

(By the Associated Press)
TOPEKA, Kan., April 13.—Sponsors of the new rural grain elevator law enacted by the 1921 Kansas legislature, declare it will greatly encourage the building of elevators, distant from terminal grain storage points. It empowers local or rural elevators to issue warehouse receipts. This will permit farmers who wish to hold their grain for more favorable markets to store it and obtain warehouse receipts which may be used as collateral in obtaining loans if necessary.

Heretofore only terminal elevators have been privileged to issue warehouse receipts. Thus the farmers, far from terminal elevators were practically forced to sell their grain at harvest time in case they were in need of money.

"The law will result in doubling the rural elevator capacity of Kansas—now estimated at 22,000,000 bushels—within the next two years," said Senator Bert Culp, of Beloit, author of the bill.

Mr. and Mrs. John Gilmore left today for Oklahoma City where they will spend a few days looking after business matters.

PLANS ON FOOT TO MAKE BROOM CORN MORE VALUABLE

(By the Associated Press)
OKLAHOMA CITY, April 12.—A more exhaustive production of broom corn in Oklahoma, the one crop in which the state leads the nation, is urged in a letter mailed out from the state board of agriculture here today. The letter contains descriptive matter relative to experiments that have been made to better utilize all parts of the broom corn stalk.

Although the production and acreage of broom corn in Oklahoma last year was somewhat lower than the figure given for 1917, it represented 50 percent of the total quantity of brush produced in the five leading broom corn states of the union, according to the letter. In 1917, 175,000 acres were planted to broom corn, for a yield of 26,250 tons of brush. The production last year was 17,100 tons from 105,500 acres.

"In spite of the importance of the crop to the state, nothing seems to have been done in the way of determining the value of the stalk and the seed for feeding purposes," the letter states. "The plant has been grown for the brush and the seed and stalk has been a more or less waste product."

The experiments were for the purpose of determining the composition and digestibility of the broom corn seed, to prepare silage from the broom corn stalk and to determine the composition of the ash of the stalk, all of which were more or less satisfactory, the letter says.

"Broom corn used as silage or as dry ruffage, however, cannot be found in experiments to warrant their use," according to the letter. "Reports indicate that some growers believe broom corn stover is worth as much as the sorghum stover or corn stover."

Methods to be pursued to prevent heating of seed are contained in the letter. After the main top or head is pulled a number of small heads usually come out and reach maturity. The heads are thrashed and are pulled before they are quite ripe, the seed consequently undergoing a heating process when left in a pile. This renders it unfit for feeding or seeding purposes, the letter says, and to combat this, growers are urged to stir the piles from time to time and expose them to air and allow them to dry.

EAST CENTRAL PLANS A BIG SUMMER TERM

A very successful school year is drawing to its close at East Central. There are enrolled in the Normal school 545 academic students, 120 training school pupils, 89 correspondence students, and twenty special students in agriculture, making a total of 776. This is an increase of 16 percent over last year's enrollment. Inquiries concerning the summer school are coming with every mail, and there is every reason to believe that this year's summer attendance will reach one thousand or more.

The summer term will begin May 23 and continue nine weeks. About 45 students will get their life certificates at the close of the spring term, and about 35 others with complete their life certificate course at the conclusion of the summer term. Between 75 and 80 students will complete the work entitling them to two year certificates, and hundreds their work for county certificates at the close of the summer term.

East Central has funds sufficient to permit the institution to operate on an economic basis until

the first of July. The summer term closes July 23. It will be seen that the summer term runs into the new fiscal year beginning July 1, for which no provision has been made by the legislature. To close at the end of the present fiscal year would be to break faith with the students who are working for their diplomas and with the teachers who must take the work for renewal of their county certificates. Accordingly, the members of the faculty will do their utmost to protect the interests of the students who have been loyal to this Normal school in the past and who show a desire to stand by it in the future. If no provision is made for the month of July, the members of the regular faculty together with sufficient number of city superintendents and high school principals, will donate their services for the month of July, trusting that some arrangement will be made to

give them a reasonable remuneration for services thus rendered. The faculty and the loyal school men and women of the district will not break faith with the students who look to East Central for assistance. East Central has been developed by twelve years of patient service; it will not permit any act of rashness to undo the patient effort of twelve years.

Demands Investigation.
WASHINGTON, April 14.—Demand for congressional investigation to disclose interests trying to put through a sales tax, was made in the house today by Representative Frear, republican of Wisconsin, of the ways and means committee. He mentioned Jules Bach and Meyer Rothschild of New York as prime movers in the campaign and charged that a huge fund had been raised "to shove the big man's tax onto the poor man."

NEW FACES SEEN AMONG PACKER MEN AT GAME

(By the Associated Press)

SIoux CITY, Ia., April 13.—Several new faces were to be seen in the Packer lineup when it took the field in the opening game of the season at Wichita today. The team has been in training at Independence, Kans., and reports from there shortly before the training season closed indicated that Manager George Andreas was highly pleased with the showing made by the recruit and veteran candidates for the team.

Mr. Andreas announced today that he has strengthened the team in every department. Twelve pitchers tried out for a berth on the team. They are Solmaltz, Burlingame, Fiske, Lotz Stewart, Bishop, Ross, Davis, Dickson, Harrison and Russell, the last four named being members of the team at the close of the season last year. Manouk, Russell and Ross, obtained from the Toledo club; Stewart, sent to the Packers under optional agreement by the White Sox, and Joe Lotz, former big leaguer, have been displaying mid season form at the training camp and probably will make up the Packers' regular pitching staff.

Two new catchers, All Wallin, formerly with the Boston Braves and Charles Graham, from the Pacific coast league, will assist Eddie Spellman, who did the bulk of the receiving from the Packers last year.

Two and possibly three new men were to be seen in the infield machine. Frank Metz, captain of the squad, will be back at first base. Gene Steinbrenner, who played in the Steel league last year, will play second. Fox played more than 100 games with the Toledo club and turned in a batting average of .270. The third base position will go to either "Runt" Marr, who covered third for the team last year, or Nick Urban, Dakota league infielder.

Five outfielders are in camp, two of which were with the team last year. Leo Casey, who comes from the New York state league; Jack Goldie, a member of the San Francisco club for a number of years, and Alfred Harber, who led the Eastern league batters last season, will make Crouch and Robinson, the two veteran members of the outfield, step a fast clip to retain their positions.

A "system regulator" is a medicine that purifies and strengthens the liver, kidneys, stomach and bowels. Prickly Ash Bitters is one of the best of these. It drives out unhealthy conditions, promotes activity of body and brain, restores good appetite, sound sleep and cheerful spirits. Price \$1.25 per bottle. Sold by Gwin & Mays.(a)

PROMISES FANS PENNANT IN THREE SEASONS

(By the Associated Press)

OKLAHOMA CITY, April 12.—When Jack Holland planted a Western League franchise in Oklahoma City and local fans erected a plant at the cost of \$45,000 he promised them a pennant within three years. That was in the middle of the season of 1918 and the team finished sixth. In 1919, it wound up in fifth position. Last year it ran third.

This year he proposes to make a supreme effort to make good his promise and with the organization already perfected he has announced that the team will "cop" the pennant.

In the outfield he has George Harper, the leading outfielder in the Western league last season and a .305 hitter; Clarence Pitt, champion base thief of 1920 who hit .331; Eddie Moore, a sensational young fielder who batted .295 last season; his first appearance in organized baseball; and Ralph Hearty, utility fielder, who bids fair to clout above the .300 mark.

On first base Dawson Graham, considered by baseball officials to be without a superior in the league as an infielder, again will hold the pivot mound this year. At second base will be Pete Hughes, a fast fielder, baserunner and good for .265 with the stick. Third base, vacated by the sale of Howard Lindmore to Detroit, will be taken care of by Eddie Wright, purchased from Kansas City, a good fielder and heavy hitter. Shanley replaces Darringer at shortstop, completing an infield that Manager Breen believes to be as good as that of last year.

Manager Breen believes he has the best pitching staff in the league. To add to his infield. It is headed by Clyde Ramsey, who headed the league last year with 23 victories and five defeats. Six others will be carried into the season, Harle, Stoner, Mitchell, Salisbury, Allen and Love.

Dave Griffith's catching berth is being ably filled by Dixie Parker a youngster purchased from the Virginia league. Jim Long will share the work with him and a promising third-string catcher, Harley, is being carried with the team.

PRICE OF FLOUR REACHES A NEW LOW LEVEL TODAY

MINNEAPOLIS, Minn., April 14.—For the first time in almost seven years, flour sold under \$8.00 a barrel at the mills here today. With a reduction at one of the large mills of its family patent from \$8.20 to \$7.90, a new low price obtained.

THE BATTLE FOR DOLLARS.

A study of the appropriation bills that died when the legislature adjourned the other night shows that there was a difference of \$1,900,000 between the bill passed by the Senate and the bill passed by the house, the Senate bill calling for the larger amount. When it is recalled that the budget submitted to the legislature early in January called for an appropriation of \$35,000,000 for the next biennium, it will be seen that the difference between the two houses arose over the question whether the legislature should cut the budget \$20,000,000 or cut it only \$18,000,000.

No matter how much the legislature be criticized for failing to reconcile a difference of \$1,900,000, it should be given credit for holding down the demands of departments and institutions and saving the people from \$18,000,000 to \$20,000,000.

The state has known for several days that the legislature adjourned because of a difference. The state is learning just now that the difference amounted to \$1,900,000. The state ought to know and will ultimately know how much the legislature saved the state—taking either the maximum figure of \$20,000,000 or the minimum figure of \$18,000,000.

Two years ago the most liberal (or extravagant) legislature that had until that time assembled in Oklahoma appropriated about \$18,000,000 to run the state for the biennium. That appropriation was made when Oklahoma was prosperous beyond comparison.

The eighth legislature assembled on January 4, at a time when the state was in the grip of the most disastrous financial depression that ever settled over this commonwealth. By reason of the depreciation in the price of crude oil and the consequent reduction in the amount of gross production tax to be collected the state lost about 35 per cent of its revenue even while the legislature remained in session.

Yet in spite of financial depression and in spite of loss of prospective revenue the state departments and state institutions asked the legislature to increase its appropriations practically 100 percent over the very liberal appropriations of 1919.

Some of the state departments insisted on an increase of more than 200 percent. The state university asked for an increase of 250 percent. The A. and M. College asked for an increase of more than 300 percent. The normal schools asked for an increase running from 150 percent to 250 percent. All the other institutions asked for increases in proportion to those we have enumerated.

Remember the total amount the legislature was asked to appropriate. Then remember that the legislature sat in the very midst of these state departments, that several of these departments have their offices on the very floor of the capitol where the legislature met, and that all of the departments could at a minute's notice pour their united forces of employes into the halls of the legislature to lobby for appropriation bills.

Remember again that all the state institutions had representatives at the capitol and that some of these representatives were there without going home during the entire session. Remember that this organization out for the biggest appropriations ever demanded employed ever weapon known to skilled lobbyists and worked day and night to get what they wanted.

Then remember that in spite of all the pressure brought to bear (including telegrams and letters from every town containing a state institution) the Senate cut the budget estimates \$18,000,000 and the House cut the budget estimates \$20,000,000.

For failure to adjust patent differences the guilty parties are justly entitled to censure. At the same time they are entitled to credit for refusing to surrender the keys of the state treasury to what might be called the special interests.

The differences between the two houses was not only a difference on how much should be spent: it was also a difference on how much should be saved.

The cub reporter of the News says that he started to read the unabridged dictionary the other night, but it changes the subject so often he lost interest.

The Daily Ardmoreite is advocating a constitutional amendment providing a legislature of only sixteen members elected from large districts similar to our congressional districts. A good suggestion that. If we only had larger legislative districts, we might have a legislature composed of men like Manuel Herrick, Nick Gensman and Joe Pringey.

ernor has never been noted for his ability to keep his temper nor has he ever been rated as possessing a scintilla of judgment when it comes to dealing with the public. His tirade at McAlester cannot have any other effect than lining up the opposition all the more definitely against him. It was rank folly, the outburst of an angry man foiled in carrying out a pet program. It can hardly seem possible now that a special session can be held which will agree to confine its entire attention to appropriation bills.

Oil Discovery Is Cause of Marriage And Separation

The discovery of oil near Bebee has already caused one marriage and one suit in district court for the annulment of marriage, according to the interpretation given of a suit filed in district court yesterday.

It seems that oil was discovered about one-half mile from the 320-acre farm of Annie Seals, a minor Choctaw negress living in Garvin county. It also seems that Annie

is only fifteen years of age. Upon the discovery of oil early in the week one Jess Luckey, a colored gentleman of the west side of the county developed a most powerful hankering for Annie and her acres, so he proceeded to bring Annie to Ada, where he secured a marriage license, alleging that his bride to be is nineteen years of age. But as soon as Will Seals, the father of Annie, learned of the marriage that has been contracted he came to Ada post haste and proceeded to file his suit in the district court asking that the marriage of Tuesday be declared null and void.

STREET CAR SERVICE IS BEING IMPROVED AT TULSA

(By the Associated Press)
TULSA, April 15.—Street car service in this city is being gradually improved following the issuance of orders from the corporation commission setting out specific improvements that must be made in the next two years.

Double-tracking on Main street from the center of the business district at Third street north to the Frisco tracks, will soon be completed. This leaves only two blocks of single track on the line and will

enable the street car company to change the service from 7 to 5 minutes.

The remaining two blocks of single track may also be doubled, following action of the city commission to widen the street between Ninth and Eleventh streets

as to make possible for double tracks to be laid. The street railway officials have signified their willingness to lay double tracks when the street is widened.

About Society News

All society news, weddings, entertainments, socials, parties, receptions, teas, dances, club meetings and activities, formal and informal gatherings, visiting, both in and out of town, is wanted by the News. The policy of the paper is to get the news while it is news and news of this nature is highly appreciated. By phoning it in to the Society Editor, phone 307, you will be doing a service both to yourself and to the paper. Remember, no matter what you think about it, others want to know it, so call the News. It will be appreciated.

Old Men.

If you should ask me what I've liked.
Of all things best,
An old man, I should say, whose smile
My heart caressed.
And gave me hope; whose kindly eyes
Shone bright like truth
Who bore, despite long numbered years,
The glow of youth.
I never hear an old man speak
But that I stand
Enthralled, as if before a great
And guiding hand;
Each word I mark with reverence
And hope that I
May be an old man, too,
Before I die.

Gives Birthday Party.

Miss Thelma Bronough entertained a number of her friends at her home on East Tenth street last evening with a birthday party. The guests arrived early and the evening was most delightfully spent in the usual manner of playing popular games and enjoying each others' company.

The evening was so highly enjoyed that it was a late hour before refreshments were served and the guests took their departure. Those to whom refreshments were served were Misses Edith Cramley, Thelma Kelly, Lorene Butler, Bernice Bronough, Helen Matthews, Evelyn Bishop, Ruth Rhea, Neoma Coon and Bertha Mae Burdock and Messrs Grady Rowell, John Saunders, Wilson Saddler, Ben Weaver and Clarence Bronough.

Allen People Here for Meet.

Misses Violet King, Juno Malone, and Thelma Crumley teachers in the Allen high school and Misses Velma and Vesta Luke, Bonnie Bonaghey, Laura Bernard, Bernice Wall, Galene Thorne and Bernice King, students at that place, arrived in the city today and will remain here until tomorrow attending the county track and literary meet and visiting friends.

Joseph Caperton of Ravia was in the city yesterday visiting friends and attend the convention at the Methodist church here.

Mrs. John McDonald and little daughter, Glee, of Pittsburgh, were in the city yesterday visiting Mrs. L. E. Franklin.

Mr. and Mrs. G. H. Griffith, who have been in the city for the past few days visiting their daughter, Mrs. C. P. Penrose and family left today for their home in Oklahoma City in their car.

H. H. Belew arrived in the city last night and will leave today for Texas, after spending a short time here visiting relatives. He will take his niece, Miss Ruby Belew, who has been employed at the News office for the past three years, home with him where she will make her future home. Mr. Belew is a prominent business man of that city and is planning to move to Oklahoma City soon.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

WITH THE WOMEN OF TODAY

Mrs. George Gellhorn of St. Louis, vice chairman of the National League of Women Voters and director of the sixth region of the league, is famous not only as a suffragist and leader of women, but as a society woman, a wife and mother. She is scrupulous about reserving time for her family. Her tremendous belief in women and women's education has been the main-spring of all her activity. She considers her greatest achievement was making the farmers of Missouri pass a resolution asking that their taxes be increased for the sake of getting better teachers in the schools.

The suffrage cause first claimed Mrs. Gellhorn as an active worker in 1908. Dr. Gellhorn had long been a believer in woman suffrage and encouraged her to take it up. She has been a director on the state and city boards continuously up to the present time. She was president of the Missouri Suffrage association in 1912-13 and president of the St. Louis league in 1919-20, the year the convention was held in St. Louis.

The year 1908 may be said to mark Mrs. Gellhorn's entrance into public life, when she took an active part in a "Save the Baby" campaign as finance chairman. In this year, too, she had her first experience had been arranged between Sylvia Pankhurst and Mr. Isaac Lionberger. Mrs. Gellhorn was asked to preside. "I tried it," she says, "and found I could do it."

Mrs. Gellhorn is the mother of four children and works hard at being a mother as well as being a public leader. With all the offices that she has filled, Mrs. Gellhorn has always longed for a paid position. She claims that the only money she ever earned was \$25 for a lecture which she delivered last winter at Washington University on "Woman's Place in the Changing Order." This money she turned back to the Washington endowment fund.

It is her rare gift to call out in those with whom she works a devotion similar to her own. Her absolute sincerity and whole-souled giving of herself, her broad-mindedness, her keen sense of humor

Mrs. George Gellhorn.

make everywhere for a ready acceptance of her leadership. Her tireless service in the cause of education and woman suffrage—which she believes one and the same—have already won for her the warmest admiration, not only in her city and state, but in many places throughout the country.

Brain Cheered Here.

At Bryn Mawr college as much honor is given the studious workers as the winning athletes. The graduate students are enabled by scholarships and European fellowships to continue their studies abroad and in schools of higher learning here. In a country where college athletes are sometimes as famous as professionals, recognition such as Bryan Mawr gives its students helps to reassert the value of brain work in colleges.

Manager Plan Proves Value To

City of Muskogee Says Manager Harrison

MUSKOGEE, April 14.—One year ago today the city of Muskogee cast aside the commission form of government and formally put into effect the managerial form of government, as the result of the vote in the primaries of February and the general election of April 6, 1920.

Mayor George H. Walker and sixteen councilmen were sworn in and the appointments of R. P. Harrison as city manager, W. W. Gilbert as city clerk and C. T. Thompson as city treasurer confirmed.

Mr. Harrison said today he felt satisfied that the people of Muskogee are glad of the change.

Program Carried.
"Everything we set out to do has so far been accomplished, according to our schedule," said Mr. Harrison.

"There is no question but that the managerial system of city government is the best in the world. It is neither a stateship nor a political government.

"In it the city is a public corporation, maintaining itself from the taxes and different revenues of the city and giving service to the public in return.

"There has been great team work in our organization. We have all pulled together and the institution of the weekly luncheon meetings of the councilmen on Saturday has done a great deal toward cementing our co-operation.

"I can truthfully say that no councilman's private considerations have ever entered into the business of the council during the entire time I have worked with them.

Harmonious Family.
"One of the best tests of this is the high rating of Muskogee among other cities in the state.

"We have absolute harmony among the employees of the city ofices. We retain the services of only those who are free from political discrepancies in their work. Their efficiency and ability to do the work assigned them has been an important factor in their retention on the city payroll. With the results so far obtained, I am satisfied that the managerial form of government will prove a great saving to Muskogee over a period of years."

Year's Record.
Some of the things that have been accomplished by the present city government during the past year, as enumerated by Mr. Harrison are as follows:

(a) Rebuilding of five pumps at the pumping plant.

(b) Completion of the viaduct connecting the east and west sides of the city over the M., K. & T. railroad tracks.

(bb) Completion of the city's link in the Jefferson highway on Twenty Fourth street.

(c) The near completion of the municipal athletic park and build-

ings thereon, which may be used for all minor and major athletic events.

(d) Installation of city scales on South Main street for the certification of grain and other products shipments to other points.

(e) Establishment of a milk inspection bureau in the sanitary department.

Wages Increased.
(f) Re-roofing of the city jail and the installation of a new heating plant in the building.

(g) Patching of pavement holes throughout the city. (About 1,200 holes have thus far been repaired.)

(h) Completion of paving in streets in the downtown district.

(i) Establishment of a detention and contagious hospital in a serviceable condition.

(j) Re-organization of the police department.

(k) Increasing the wages of city firemen which has eliminated the breaking in of new men due to the resignation of those who could not support their families on the old wage scale.

(l) Reduction of the insurance rates of Muskogee of approximately 40 cents on a thousand, thereby placing this city in the favored class with Oklahoma City and Tulsa.

That the city will live within its budget for the year is the opinion of Mr. Harrison.

Some Farm Notes

Fire Blight.

This is a disease which attacks some varieties of pears and apples. The bark on the limbs of the diseased trees will turn black and the bark will shrivel and the limbs will die. This disease will kill the entire tree in a short time if the conditions are favorable to its spreading. The only sure remedy which has been found for this disease is to stop cultivation. The disease always starts on tender growths and if cultivation is stopped the succulent growth will also stop. In setting out new orchards it is well to set varieties which are blight resistant.

Chicks Dead in the Shell.

It is not known why chicks die in the shell, according to Professor Harry Emberton, head of the department of Poultry Husbandry of the Oklahoma A. and M. College, Stillwater. Many people who have been in the poultry business for years, he says, are asking the same question. It is believed, he says that this is partly caused by weakness in the parent stock. It may also be caused by the wrong management of the birds used for

breeding. If the birds used for breeding have been pushed for winter egg production and then their eggs hatched without first having given these birds a rest you can expect not only poor results caused by chicks dying in the shell but also because of infertility.

Sprinkling the eggs on the 18th day after placing them in the incubator or treating them with a hot towel the 18th day, then closing the incubator and leaving it closed until the hatch is completed seems to help overcome the trouble and to lessen the number of chicks dead in the shell.

Having moisture in the incubator also seems to decrease this trouble. The moisture can be supplied by putting some water in a shallow pan and putting this pan under the egg tray.

Black Spot.

This disease is one that attacks plum trees and is very similar in many ways to the fire blight which attacks the pear and apple. However, experience has shown that the opposite treatment is necessary in combating the two diseases. To control the black spot the trees must be well cultivated and the ground enriched, causing the trees to out grow the disease, while in the control of the fire blight cultivation must be stopped.

Why the Dairymen Need a Silo

1. Dairy cows need succulent feed during the dry season and during the winter.
2. A silo will preserve feed crops in the best and most palatable form.
3. Silage is cheaper than any other feed for cows.
4. A well-filled silo solves most of the dairyman's feed problems.
5. A silo affords a dairyman the best storage room for home-grown feeds.
6. Dairying can not be made so profitable without a silo as with one.—A. C. Baer, Professor of Dairying, Oklahoma A. and M. College.

Advantages of Country Life.

The following bit of wisdom from one of the world's greatest naturalists and nature lovers is of peculiar interest at this time following the close of the illustrious career of that noted and greatly beloved American man of letters: "The best and most hopeful feature in any people is undoubtedly the instinct that leads them back to the country to take flocking to the town and its distractions. The lighter the snow, the more it drifts and the more frivolous the people, the more they are blown, by one wind or another into towns and cities."—John Burroughs.

MILLION DOLLAR PAVING PROGRAM FOR TULSA

(By the Associated Press)
TULSA, April 14.—The letting of contracts by the city commission for more than \$1,000,000 worth of

paving here last week at prices which will cause an assessment of about \$750 a lot to be made on all property abutting on the streets embraced in the contracts, has brought about an investigation of paving prices. The Real Estate Exchange has charged that the city is in the grip of a "paving combine."

A local cement company, has submitted figures showing that concrete paving six inches thick can be laid for \$3.11 a square, allowing for a 15 percent discount on the

paving script and a profit of 20 percent of the paving company.

The prices charged in the contracts range from \$4.20 to \$4.80 per square yard.

A further investigation is being made into the matter by the real estate men who declare that they will carry the fight to the floor of the city commission and there demand that paving companies be induced to bid on work at reasonable figures.

Snake Oil

Will Relieve Pain in a Few Minutes.

Try it right now for Rheumatism, Neuritis, Lumbago, sore, stiff and swollen joints, pain in the head, back and limbs, corns, bunions, etc. After one application pain usually disappears as if by magic.

A new remedy used externally for Coughs, Colds, Croup, Influenza, Sore Throat, Diphtheria and Tetanus. This oil is intended to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once. As an illustration, pour ten drops on the thickest piece of sole leather and it will penetrate this substance through and through in three minutes.

TULSA SCHOOL WINS OVER

O. C. C. DEBATING TEAM

TULSA, April 15.—The University of Tulsa won a double victory in debates with Oklahoma City college, Tuesday evening. The Tulsa team at home championed the affirmative and at Oklahoma City defended the negative. The affirmative speakers were Ray Fleak and Gerald Kleinknecht. The negative team representing the University was composed of J. H. Robinson and Roy Rains. The subject was on the advisability of the national government enacting a law creating an industrial court, similar to that of Kansas for settling labor disputes.

The same teams are scheduled to meet Kingfisher college at Tulsa and Oklahoma Baptist University at Shawnee Friday evening. Besides winning the debates, the university of Tulsa won first honors in the state oratorical contest, Miss Elvira Jones representing this school.

At the McSwain.

Cecil B. De Mille's latest production, "Something to Think About," is different in theme from anything he has attempted in the past. He has expended his artistry and meticulous attention to detail upon an intensely human story of real folks. The result is a picture in every respect up to the usual De Mille standard. "Something to Think About" opens a two-day's run at the McSwain theatre next Monday.

The story, written by Jeanie Macpherson, who transcribed "Male and Female" and "Why Change Your Wife?" to the screen, centers around Ruth Anderson, daughter of the village blacksmith. A rich man, David Markley, lives in the neighborhood and, becoming interested in Ruth as a small girl, sends her away to school. She returns a young and beautiful woman, and it is understood that she and Markley are to marry. On the impulse of the moment she elopes with a youth of the village. Her husband killed in an accident, leaves her

destitute, and, returning to her native town to find her father blinded, she is in despair, until a series of dramatic events leads to her reconciliation with Markley.

A cast that is practically all-star interprets "Something to Think About." Gloria Swanson has the role of the heroine and proves that she is just as effective an actress in gingham as she is in fine clothes. The picture marks the return of Elliott Dexter to the screen as leading man. Theodore Roberts is admirable as the old blacksmith and Monte Blue has an important part. The picture is a Paramount. Special orchestra music will feature this production Monday and Tuesday, April 19 and 20.

Recital at Normal Was Best Given Here During Past Year

What is undoubtedly the best joint reading and musical recital for high school pupils ever given in the city was that given by the pupils of the Misses Kittell and Adams. Every one in the recital were at their best and the results that have been obtained by the teachers in instructing their pupils was very evident as they all were excellent.

A large and appreciative audience, larger than the audiences usually are and the fact shows that lovers of good music and readings are in a large number here. Both High school and Normal students took part in the recital and an evening of real entertainment was furnished.

The program was long, but interesting throughout, and well selected and well given. Various numbers of the piano readings were given that not only won the undivided attention of the audience but won its hearty applause. The young men and ladies who took part in the affair as well as the two instructors are to be complimented on their success in the work.

MAN'S INTEREST IN BIRDS

ALMOST GOT HIM IN TROUBLE

NEW YORK, April 15.—An elderly man sat motionless under a tree at 257th and Broadway when a mounted patrolman was informed that a "queer stranger" had been sleeping there, approached.

"I'm interested in birds," the old man said. "Particularly the domestic affairs of the pair of robins above us. I have enjoyed their acquaintance three seasons."

He launched then into the story of a row that was being waged in the nest, the result, he said, of the laying there of a cuckoo's egg.

"The male bird wanted to throw it out, but the female chirped 'no' and has hatched it. I am waiting to see what will happen next. Queer things, birds."

"Yes," said the patrolman, "and the folk hereabout think you're somewhat of a queer bird, too."

"How very extraordinary," was the reply; "there's my card."

The patrolman read: "Professor Malcolm Ogilvie, New York Ornithological Society," and rode on.

WOULD SEGREGATE FORMER SERVICE MEN'S BUSINESS

(By the Associated Press)

WASHINGTON, April 14.—President Harding's recommendation for a consolidation under a single head of all government agencies dealing with former service men, is to be taken up at once by congressional leaders.

At a conference today it was de-

cided that the service men's bill should not wait for perfection of the general reorganization plan. It also was decided that a personal representative of the president's, to be named later, should sit with the reorganization committee during its future deliberations.

VINITA—Preparations are being made here to entertain visitors and delegates to the Eastern Oklahoma district convention April 21 of the order of Odd Fellows and Rebekahs.

Nearly Died on Birthday

"On my last birthday, eight months ago, I had another close call. We had just finished dinner. My stomach began to hurt me, a minute later I lay unconscious. Three doctors worked on me. I was soaked with a cold sweat when I came to. The next week, telling a friend about it and he advised trying Mayr's Wonderful Remedy. Since taking a course of your medicine I have been able to eat anything. I have no more pains or bloating and am feeling better than for ten years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by Gwin & Mays and druggists everywhere. (28)

Boxing Exhibitions Witnessed by Large Crowd Last Night

A large crowd yelled itself hoarse last night at the City Hall while six clever boxers, two whites and four blacks, fighting two four-round battles and one eight-round go demonstrated their ability to execute and receive punishment which would have been fatal to one not schooled in the manly art.

The bouts were held under the auspices of the American Legion post and while all of the attractions which they had arranged for did not materialize, the auditors were so well pleased with what did transpire that omissions were not noticed or complained of.

The first boxing bout was a four-round go between two negroes, Ferguson and Hall, both local men. The contestants were about evenly matched and their main achievements were the mutual delivery and receipt of a series of well meant haymakers without wasting much of the precious time with covering up of the weak spots.

The first three rounds were pretty fast, but both men were somewhat winded in the fourth and the final song found them playing for time and glad to quit. Buck Sterrill refereed the match, but no decision was rendered.

In the second bout Archie Cooper a student at the Normal and Clarence Thomas, a local man, went four fast rounds to no decision. Cooper was taller than his opponent and had a better reach but the wiry Thomas made up for these shortcomings by clever management and splendid action. Very little blood was drawn, and both men ended the contest in practically the same good condition as when it started.

In the third and final bout Jack Cannon and Jack Stone, the two local negro pugilists who fought five rounds at the City Hall a month ago, were the contestants in an eight-round go. Since their last fight the two men have been in training and they faced each other in the squared circle last evening in much better fighting condition than they were in for the former battle.

Stone had got rid of much of the superfluous flesh, which acted as a brake to his action a month ago, and his intense training had made him a dangerous antagonist for the wily and hard hitting Cannon.

Each round was full of action and the punishment was great, but neither of the hardy contestants could place the blow so much desired by each one. Once, during the first round Stone went down under a trip hammer blow to the chin, but he came up smiling the smile which Cannon has learned to dread.

Up to the eighth round the fight continued with all its original pep and fury, but in the eighth both men showed signs of weakness and when the final gong sounded both retired from the ring with less alacrity than they had entered it thirty minutes before.

The crowd was larger last night than that which witnessed the former exhibition a month ago. Nor the least interested among the spectators were five ladies who seemed to enjoy the fun as much as the men.

Buck Sterrill refereed each of the fights and all of his acts met with the approval of the spectators. No decision was made on either of the contests as they were all intended merely as boxing exhibitions for the entertainment of those who enjoy the sport.

Members of the Legion post are well pleased with the attendance and with the entertainment furnished by the contestants. Other similar bouts will be held from time to time.

Beginners' Recital at Normal Was Well Attended Last Night

The recital at the Normal last evening was well attended despite the fact that several other meetings conflicted with it and the students though all just beginners in the work, were at their best and entertained the audience in an excellent manner.

Of the selections given during the program, none was lacking in interest and the pupils acquitted themselves well. Misses Adams and Kittell, instructors for reading and piano classes both in the Normal and high school have done good work among the students and are to be complimented on their success. This is the first joint recital to be given by the classes this year and those interested are pleased that it is so great a success.

Gives Up Hope for Time.
(By the Associated Press)

HENRYETTA, April 14.—After waiting for several years for the long promised invasion of an interurban line that would connect Henryetta with some of the larger cities in Eastern Oklahoma, this city apparently has given up hope of making this connection and the unpaved space extending down the center of the main thoroughfare where the car tracks were to have been set has been filled up with concrete and brick and brought to the level of the pavement.

Several years ago the city of Henryetta granted a franchise to an interurban company which announced its intention of making this city a prominent station on a cross-country line. When the streets were paved allowance was made for the prospective railroad. Then came the war and since then Henryetta's hopes for an interurban system have "gone glimmering."

In the interim, however, a serviceable system of automobile transportation, both city and intercity, has been developed by local enterprise.

OLD SIGNS OF VILLAGE OF
TULSA WILL BE DESTROYED

(By the Associated Press)

TULSA, April 14.—The last vestiges of the village of Tulsa that stood 20 years ago are disappearing this week. The hand of man and the edict of the fire marshal is causing the removal of four wooden shacks two blocks from the

"for Swamp Chill Tonic to break up my malaria, and I've felt fine ever since. I wouldn't be without this wonderful remedy."

heart of the business district that while admittedly being dangerous fire traps, have stood there all of these years unharmed.

The buildings are on North First street near Cincinnati avenue. They cover a quarter of a block of valuable business property and have housed at least a dozen old clothes shops, restaurants, chili stands and rooming houses during all of the years when adjacent property was being built up with permanent brick buildings.

The final decree of the fire marshal was issued at the instance of neighboring property owners to relieve them of the fire hazard caused by the close proximity of these shacks to other store buildings.

GENERAL COXEY AGAIN GOES TO WASHINGTON

WASHINGTON, April 15.—"General" Jacob S. Coxe is back in Washington.

Twenty-seven years ago the "General" marched his army to the capital, advancing upon congress with a bill to relieve unemployment.

This time Coxe traveled by train minus his army, but carrying the same bill which was introduced in his behalf, in 1894.

Tuesday the bill again was introduced in congress, by Charles J. Thompson, Representative from Ohio.

"Persistence," Coxe philosophized, "should not wane with the pass-

age of time." Coxe will be 67 next Saturday.

His bill would authorize the government to lend money to local or state communities on bonds deposited with the Treasury Department. The measure seeks to give work to the jobless by providing legal tender money without interest to build roads, new homes and other improvements.

Cotton Report

WASHINGTON, April 14.—Cotton consumed during March of this year, exclusive of lint, totaled 437,933 bales as compared with 575,789 bales last March, the census bureau reported today.

Other figures show: In cotton growing states, 263,348 bales, compared with 321,296. Held in consuming establishments March 31, 1,337,790, compared

with 1,853,996 last year. Held in public storage and at compresses 5,235,300, compared with 3,240,197 last year.

Imported 27,282, compared with 133,727. Exported, including lint, 375,180 bales, compared with 794,460. Linters consumed during March were 37,991, compared with 31,597.

Held in consuming establishments 208,647, compared with 304,280.

Held in public storage and at compresses 294,350, compared with 401,955.

Exported 6,845, compared with 4471.

According to a report the college is now in better condition than it has been for some time. All the students are showing a greater interest in their work.
